

1=low, 5=high	Feasibility 1	Feasibility 2	Feasibility 3	Feasibility 4	Feasibility 5
Interest 5					
Interest 4					
Interest 3					
Interest 2					
Interest 1					

Take each option you are considering, rate it (1 is low, 5 is high) and put it in best box by:

- level of interest (how excited does each option make me feel), and by
- level of feasibility (how easily possible is each option – think about cost? time? resources? difficulty?)

**Then only weigh up options in boxes 4 and 5 for action – choose one and start!**
